CSR Partnership Radar · Weekly CSR Intelligence Digest — Components Map (High)

Actor	Trigger	Input	Context	Processing	AI	Output
Vercel Cron Scheduler	Runs every morning 07:30 IST (+ Refresh now) Mondays → digest					
Live news sources Google News RSS · GDELT		Fetches last 7 days of CSR news (~15 searches built from her settings)				
Neon Postgres Settings + memory			Ananya's sectors, regions, weights, NGO profile; past stories per company			
Pipeline code Next.js on Vercel				Dedupe + 7-day window Free pre-filter (adverts) Nothing deleted → Cold		
Gemini Flash Reader					Story → structured facts signal · sector · ₹ · place + verbatim evidence quote	
Rules engine Code · Ananya's weights				Verifies quote in source Radar score 0–100 → Hot · Warm · Cool · Cold		
Gemini Flash Writer + web search					Point of contact (sourced) B2B email draft (JTBD, Hook·Pain·Value·CTA)	
Resend + Dashboard Delivery						Mon email: snapshot + only Hot companies → link; dashboard + CRM daily
Ananya Review gate						Decides who to call Edits & sends email herself Moves deal in micro-CRM

The cut: Gemini Flash only extracts facts and drafts; deterministic code decides the score; Ananya decides who to call. Nothing is hidden — Cold stories stay listed with the reason. All AI = Gemini Flash.
