CSR Partnership Radar · Weekly CSR Intelligence Digest — Components Map (High) · v3

Actor	Trigger	Input	Context	Processing	AI	Output
Vercel Cron Scheduler	Runs every morning 07:30 IST (+ Refresh now on dashboard) Mondays → digest email					
Live news feeds Google · Bing · CSR press		CSR news, last 7 days (searches built from settings) Policy searches: last 30 days				
Gemini 3.7 Flash Open-call finder + Google Search		Open CSR RFPs / EOIs for NGOs last 30 days, deadline open kept only if page names the org				
Neon Postgres Settings + memory			Ananya's sectors, regions, weights, NGO profile; past stories per company			
Pipeline code Next.js on Vercel				Dedupe + time windows Free pre-filter (adverts) Nothing deleted → Cold		
Gemini 3.7 Flash Reader · via OpenRouter					Story → structured facts signal · sector · ₹ · deadline + verbatim evidence quote	
Rules engine Code · Ananya's weights				Verifies quote · radar score Hot · Warm · Cool · Cold · Policy Open calls = always Hot		
Gemini 3.7 Flash Writer + Google Search					Point of contact (sourced) B2B email draft (JTBD, Hook·Pain·Value·CTA) + summary	
Resend + Dashboard Delivery						Mon email: snapshot + Hot only Daily dashboard: Hot · Warm · Cool · Policy · Cold (all listed)
Micro-CRM Neon · on the dashboard						Company profiles, contacts, deal stage, next steps, activity log, pipeline board
Ananya Review gate						Decides who to call Edits & sends email herself Moves the deal in the CRM

The cut: Gemini only finds, extracts and drafts; deterministic code verifies and scores; Ananya decides. Nothing is hidden (Cold stays listed). All AI = Gemini 3.7 Flash via OpenRouter, Google providers only.
